Mr. Buchanan is so angry over the elections that he means to let off his pent up passion against all northern men who have corresponded or shaken hands with Old Brown within two years. The trais of Stevens in a federal court is merely a political trick on the part of Governor Wise, but our President hungers for more blood. It was not enough for him to trot down to our railread depot so gallendy to see the marines off his must show his mettle, now that Governor Wise has given his counsel by hauling a few northern anti-starcy men over the coals. Gerrit Smith, Dr. Howe, a few men in Ohio, possibly Governore Seward and Jack Hale are to be summoned down into Virginia as witnesses. Wappermise that no man, has any closies on the Rapublican party for a Presidential nomination that are worth talking about. Senator Seward has no more than Judge Read; Gov. Chase has no more than Judge Read; Gov. Chase has no more than Judge Read. The right of each in the premises is incanared, firstly his ability to administer the government on Republican principles; and, second, by his strength in the nature of electoral votes—i.e., by his apparent ability to carry enough States to secure a majority of the electoral college. We give the former qualification the precedence, because we doem a defeat next year preferable to find sort, of a supremency which shall put victory out of our reach in the next deep years and because it is evident that a firm hand and an unbending will are likely to be in requisition to crush the spirit of Disunton when the line comes to inaugurate the first Republican President. We can better afford to well's toly years than to elect a man who will be no less prompt and decisive in a like emergency. If any of the persons whom we have a many of the persons whom we have spanned cannot ongog to give the point of the proper remedy to that stans of disorders in his time, and we must have a may how will be no less prompt and decisive in a like emergency. We take it that the Republicans do not propose to acquiesce in the nomination of any
may whose views on the matters at issue betion the parties are not clearly and unequivocally defined; noy will they accept as a definition the spee dissi of any newspaper editor

too much haste to procure from him a plain and
authoritative exposition of his principles and
proposed policy, over his own sign manual.

The Republicans have taken possession of Richland County in fine style, electing their candidates for Treasurer and Circuit Clerk by handasme majorities. There were feur candidates for Treasurer—two Republicans and two Democrats. Each of the Republican auxidiates received more votes than either of the Democrats, the vote standing: R. B. Marney, (Rep.) 380; G. W. Carrothers, (Rep.) 312; A. L. Byers, (Dem.) 281; John Banks, (Dem.) 102. G. D. Morrison (Rep.) was elected Circuit Clerk by a plurality of 52. The Republicans elect the Surveyor, and the Democrate the School Commissioner was not the school of the standard the School Commissioner was not the school of the

matter the Tan says:

"Something should be done to check the far
ther shedding of human blood in our midst.—
No mands life is secure as long as the scenes of
figlence and bloodshed which have been of such

place within as short a space of time, and yet to few of the offenders been arrested and brought to justice.

Most outstageous and palpaby illegal proceedings here larely been carried on against a reculant Mormen by the name of Smith. In speaking of the case the Zos says:

"The charges against Smith are or trivial and insignificant that they are unworthy of notice. They are such charges as might be made against hundreds of men in the streets of this city every hour in the says, against Mormons awell as Gentlies. Smith a real offence was, that he is an apostate Mormon.

The speculations which have from time to time occurred as to the probability of the Mormons leaving the Valley seem to have no foundation in fact. The idea is accusted in this wise:

The incoming of the army kere has been a source of revenue and profit to all classes, and the prosperity that has followed in its train is perceptible in every branch of industry. The recy contume of the people has assumed a finer feature and poish than it before possessed. It is not reasonable to suppose that a people entoying a degree of prosperity which they have hitherto unknows, and who are reaging in substantial benefit the rewards of treason and rebellion, will voluntarily abandon their good fortune, or desert a government to beneficent and charitable as ours has been to them."

The editorial massagement of the Valley Tan has passed into the hands of Mr. 2. De Wolfe, whose ability is very obvious from the tone and style of his writing. He avon his determination to reflect truly the state of affairs in the Territory at every hasted. layest and sucjifest statuers on the ricer test to the up and well for them at the mouth of Hatchirrius, under the pretence of undergoing repairs. That is should like a crangement complete, and whenever he said the word, could take from five hundred to one thousand at a rie, and fand them safely at Cairo, in the seamps of Indiana, where they would at once be free. I found Mr. P. a very bold schemer, and a man of good address and winning manners, and the very man for our purpose; and as it is known he in a slaysholder himself, no one would, for a moment, suspect him for being concerned with our ceuse. I showed him our constitution for the Provisional Government, with which he was much pleased, and I advised him not to make the stampeds of alayes he expected to make, but to keep them at work, secretly preparing each other, and as many others as they could get to join them, for our October atrike. He said he would do so, and that he could guarante 1,000 arned slaves, who would be ready to spring together at a moment's call, and that as soon as operations were commenced with them, that other slaves would fock to them by thousands wherever they went, through all parts of the State. The Ostanwa Ship Canal.

The editor of the Montreal Gazette seems to have had access to the forthcoming report of Mr. Thomas C. Olerk, who succeeded Walker Shuiles, Ead, as Engineer of the Ostawa Ship Canal. The Gazette gives the following particulars:

The Springfield Independent, a neutral Derratic paper, which plays the fighter harmon

a If Virginia is so wanting in policy as to hang Brown, ahe may yet see the truth of the old saying of the schoolmen that "the blood of the martyra is the seed of the church. She may liang Brown, but if she dees she will make a here of him—a martyr that same class will canonize in memory, and whose name will become to them a shibboleth of a conflict that they will make irrepressible. As much depends upon the South as upon the North whether the slavery quastion shall be made 'irrepressible.' Humanity calls for peace and fraternity, for this strife that is made irrepressible a strife that makea uneasy sleep to the head that owns a slave, it can be made a strife of midnight raids—bloody hearth-stones—desolated homestead. alive. It can be made a strife of midnightratics—bloody hearth-stones—desolated homesteads—a strife the very though of which makes the heart of humanity siekes. The hanging of these mistuated insurgents who now lie in the jail at Charlestown will tend to ensanguine feelings already as bitter as gail. But to imprison them—to deprive them of the coveted crows of marryrdom—will make ignominations what sies were glorious. No Virginian in his senses believes that the North is far imprepased with entiments of abolitionism, and it should be their policy to work to preserve that almost sentiments of abolitionism, and it should be their policy to work to preserve that almost universal feeling of conservatism which pervade the North, for conservatism, North and South is the very cement which binds the stones in the arch of the Union. The New York Satanic was first called to the stand, sworn, (until after election,) and testified, that the Harper's levery inaurrection commenced at Rochester a long time. Had always

ficulty between himself and wife and an in-justition on his property, and a writ pending a divorce, and that he would be hard to find—so I concluded to go on. When I arrived at Mem-phis, I nocidentally met with Mr. Palmer at the hotel where I stopped. I handed him Mr. H.'s letter. After reading it he cordially shook my hand and invited me to take a walk with bim. We went up to a place on the bank of the river called the old Navy Yard, and took a beat on some bage in a seculuded place, where he said we could talk freely. He said he had sincerely aympathised with you, Captain, in all your troubles, as he had been a martyr of slave-hold-ers himself. He said he had been working silent-ity, but sicasily, for our cause for two years, and that he had married a widow who had a number of slaves, for the purpose of establishing him-

that he had married a widow who had a number of alsees, for the pirspose of establishing himself in the good opinion and confidence of the six cholder where him. That he had at first intended, at the first good opportunity, to transfer all the six see the had got in his possession by most that, see the had got in his possession by most that, see the had got in his possession by most that, see the radie by way of Cincinnati; as the sighton a gress samy sport, belonging to his sighton as gress samy sport, belonging to his sighton as gress samy sport, belonging to his sighton as gress that he had, with the end of the sighton and wife case that he had, with the source advice of see that he had, with the source advice of see that he had, with the courts advice of see that he had, with the courts advice of see that he had, with the courts advice of see that he moment is warning. That he was still making for his rights by marriage; and that the Supreme Court has given a decree in his Supreme Court has given a decree in his court of the siarces again; and that when he again got full con-

Gov. Wise sent his voluntary affidavit drawn by treable brace of mules—and arranged in reasms. The Court is definitely postponed the reading, but complimented the writers as the "Paper-maker's friend," the Illustrious patron of Barney Desnelly; and ordered that the document about to rearrange the development of virginia in the department of "unreadable papers."

Tram Pike's Peak.

Mammoth Cave, where I wish to be for a number of days before suithing domas of there.

William Horper has just arrived here from New Orleans, on his way to join you at Harper's Ferry, Nothing could have happened better for me. I guess I must be in a streak of good luck. I feared to write particulars to you by mail for the dangers of interception. But as William is here I write you in full and trust it to his care. He awears to me that he will daliver it to you in person or itle trying. He is a good boy and may be depended upon. Now, I say, be cautious, and let us have a strike soon. It cannot come to quick, for I believe from what I have a strike soon. It cannot come to quick, for I believe from what I have a strike soon. It cannot come to quick, for I believe from what I have to be very eargin here, as the people are very suspicious of Northern men. I sometimes I have to be very eargin here, as the people are very suspicious of Northern men. I sometimes I pass for a traveling preacher, and others as a New Orleans merchant, looking at the crops and talking speculations in cotton, etc. Southern people are easy guiled. If there will be any failure in the Happer's Ferry strike let me know in time. You shall hear from me soon.

Yous, faithfully,

P. S.—Mr. Palmer says you must address your letters as follows:

Dr. W. Rossell Palmer, Green Bottom, Shelby County, Tenn.

At the conclusion of the reading of the abode the proaccution introduced J. C. Lanier, Eaq., Clerk and Master of the Characery Court, who testified that the statement made in the said letter, in reference to the family of Dr. Palmer, the lawsuit, etc., were correct. Judge W. T. Brown was also called by the State, and corroborated the abore.

The prosecution thes rested their case. The connect for dellar was really mailed from New York to Gov. When one that there was a Constitution for a regurally organised Provisional Government until the 23d. This Woods on Fire.—For the last week or so, the woodland in this vicinity has been on fire. Much damage has been done, as a great deal of cord wood has been entirely consumed, besides fences and confidels suffered to a great extent. How this tire originated it is hard to tell—everything being dry as powder it apread rapidly, and went over a large extent of land before it was discovered, and the whole country was enveloped in a heavy dense smoke. The young timber for miles around is entirely ruined, and the damage done may be estimated by thousands, instead of hundreds of dollars.—Selem Addecasts, 1068. he was riding and railroading and expressing here and thirther. Mos Practics at Alvox.—There was a small mob at Alton a few nights ago. A lady who had formerly been the wife of Dr. Johnson of that place, but had been divorced several year, ago, called on she Doctor to see her son, a lad of fifteen years, who lived with his father. The boy, it seems, refused to see his mother, and went or was seen out into the country. Believing the boy to be secreted about the house, party of citizens gathered, and broke in the doors and windows. After this they were prevailed on to retire. Next morning he was brought into town, saw his mother, and she lef satisfied. The excitement then cooled down and the rioters agreed to repair the damag.

Not to lose a share of glory, are their bullets in his clay; How the conquerors were their inurels—how they hast-cord on the trial— How O.d Brown was placed, half dying, on the Charles-tows Court House floor.— How he spoke his grand oration, in the scorn of all de-nials—
